ABOUT ADNANE

With more than 20 years of technology experience, Adnane Khalil is a seasoned and fast adapting technology executive with proven ability to lead enterprise software, transaction processing, and service companies. He has extensive experience in taking delayed applications to market and resolving software performance situations, capacity assessment and consolidation of platforms through the elimination of redundant services and the use of integration tools and enterprise level web services.

Described as a flexible business leader with unique ability to build positive, results-oriented environments with strong track record of establishing lasting customer and strategic partner relationships, Adnane has managed geographically and culturally diverse teams through all phases of corporate growth: start-up, organic growth expansion, turnaround and M&A.

Adnane holds a Bachelor of Science in Computer Science from University of West Florida as well as a Master in Business Administration from Brenau University where he graduated from Dun and Bradstreet's Advanced Development Program as Lead Systems Analyst for flagship ERP product SmartStream System.

WHAT OTHERS HAVE TO SAY

"Adnane is one of the most talented people I have ever had the privilege of working with. In addition to his unmatched technical capabilities, Adnane has the rare gift of empathy. He immediately connected with a diverse, dispersed team of developers and within weeks visibly brought them together as a common team. His performance on our executive committee was equally impressive. I found his advice pertinent and compelling." *-John L.*

PERSONAL SLOGAN: "HAVE FUN EVERYDAY."
