ABOUT BRANDON

Over the course of his career, Brandon Schust has implemented hundreds of .Net/C#/Java built Products and Applications in various systems in an array of software models. He specializes in converting existing web and back office development teams to an agile methodology and reorganization of software engineering process.

Brandon's strengths include defining software development, IT operations, and infrastructure architecture. He has been called a visionary leader who is skilled in designing current and future enterprise infrastructure needs. He is an advocate and recruiter for merging seasoned talent into existing businesses in order to accelerate client requests turnaround and grow product offering.

Brandon has honed his skills through years of defining and implementing many industry standard hardware and server software platforms from HP, Dell, Cisco and F5 to every flavor and form of the VMware, Linux and Microsoft products. He has overseen and participated in multiple acquisitions, divestitures and recapitalizations while maintaining existing company objectives, products and clients workflows.

WHAT OTHERS HAVE TO SAY

Brandon is a highly intelligent and driven leader who is a pleasure to work with. He is always professional and always has the best interests of his company in mind. *-James P*

I have had the privilege of working with Brandon for over 10 years and multiple companies building excellent, high functioning teams. Brandon is the most well rounded leader I have ever worked with. He has an enormous amount of infrastructure, development and leadership knowledge. *-Kiley R.*

Remover of obstacles is the phrase the comes to mind when I think about Brandon. If there is any difficulty or blocker preventing work getting done Brandon swiftly and effectively handles it in a very professional manner. It is a rare opportunity to work with a VP who is also a coach and a mentor as Brandon is. *-Michael S*

PERSONAL SLOGAN: "PERSEVERANCE."
