ABOUT JEFFREY

Jeffrey has over twenty years' experience working in and with IT departments for small and large companies. He has worked in software implementation & development, user support, operations, networking, business analysis, project management, and departmental management. Reaching across the traditional boundaries of IT and into business areas such as process improvement, strategic planning, product development and marketing campaigns allowed Jeffrey to bridge the gap between technology and business. His passions are leadership, process improvement and Agile. Jeff believes that people and business culture are critical keys to success for any company. Jeff has been involved in, and led, process improvement teams both inside and outside the IT department.

WHAT OTHERS HAVE TO SAY

"Jeff has been my trainer and supervisor for the past 6 months. I am very young and haven't had a lot of experience. I was nervous for the process of training to work for Braintrust. The way he trained me went perfectly. He didn't throw everything at me at once. He was very patient and consistent in the way he approached the training process." *-Kaden S.*

"Jeff is a true servant leader." *-Michele S.*

"Jeff is an integral part of our operations team. His ability to think and plan weeks ahead has been critical for us to consistently meet our goal of giving amazing customer service to our trainers. Jeff is an individual that everyone on our team knows that we can count on to get things done right and on schedule." *-Nicole F.*

PERSONAL SLOGAN: "NEVER BORING, KEEP MOVING FORWARD!"
