WHAT OTHERS HAVE TO SAY

"Michele knows how to keep tasks on track. She's detailed, polite (yet not a pushover), organized, and knows how to rein in a group going off the tracks. It was great working with her because I was confident that she knew how to keep projects moving in the right direction." *-Tyrus B.*

"Michele is a creative and dedicated professional. While she and I worked together at The Times, she maintained customer focus and kept the end-result in mind. She worked well with diverse teams of people and she could be counted on to plan carefully and thoroughly. She mobilized resources, motivated stakeholders, and made sure things got done in a timely manner. She also adapted to changes and was flexible in a variety of situations." *-James D.*
