Certified Agile Leader

Project Management Institute
Project Management Professional

ABOUT ROBIN

Robin has specialized in delivering infrastructure solutions for enterprise use for the past 5 years. These projects ranged from selecting Co-Location Data Centers, standardizing legacy networks to new enterprise network requirements, installing cloud VoIP solutions, migrating from Microsoft Exchange to Google Apps, and upgrading all company computer devices to a newer version of Windows. At ChenMed, she has taken on the role of Scrum Master as they implemented Agile 6 months ago. She is a certified Scrum Master and Product Owner, and she finds it very challenging employing a different skill set in this role. She looks forward to improving in her current role and becoming a better Agile leader.
