ABOUT GLEN

Glen rose to Operations Manager of plastic/chemical factory in his early 20s before leaving and turning his focus on IT fields. He then spent 15 years in Senior IT position at Toyota. Now he has been for the past 3 years in his current role where he manages a team of 10-12 direct report team members and also leads the transition of the entire IT organization at Vectren to Agile. Glen started that transition two years introducing one team into the company. Since then he has started 4 more teams and now is focused on scaling agile up to 10 concurrent agile teams. Glen graduated from Western Kentucky University with a Bachelor of Science degree in Mathematics.

WHAT OTHERS HAVE TO SAY

"I learned a great deal from Glen about being a true servant leader."

PERSONAL SLOGAN: "LEAD OTHERS WHERE YOU WANT THEM TO GO RATHER THAN PUSHING THEM FROM BEHIND."
