ABOUT JOHNNER

Over the course of his professional career, Johnner Londono has earned more than 15 years of experience in IT software quality assurance and over eight years of experience in building QA organizations.

Now serving as Product Quality Manager for ChenMed, Johnner's strengths include identifying areas of improvements for his team and maximizing the growth and performance of each of his team members. As a leader, Johnner believes in constant growth and therefore pushes his team members to continually improve.
