### ABOUT MARYANN

Maryann Mellor is a mother, an educator, a volunteer, and a logistical expert. In her current capacity with The Braintrust Consulting Group, Maryann serves as Logistics Coordinator where she manages every detail from travel to catering for a team of 10 instructors who teach more than 200 classes per year.

As a leader, Maryann fully embodies servant leadership. She goes above and beyond to work for her team and give them the tools they need to succeed. Her greatest strength is her ability to quickly and efficiently solve problems while navigating a multitude of variables.

Prior to joining Braintrust, Maryann worked in a variety of roles ranging from primary education to auto insurance. She currently volunteers for Special Olympics and Girl Scouts of America and serves as the PTO president for her children's elementary school.

Maryann graduated from West Chester University in Pennsylvania (1991) with a bachelor's degree in Early Childhood Education. My most recent employment was lunchroom supervisor for Washington Elementary School from 2012-2016 and Braintrust Logistics Coordinator from 2014 to present.

### WHAT OTHERS HAVE TO SAY

"We can always count on Maryann to be leading the way with amazing customer service. Whether it is sending gift certificates for ice cream to attendees in a class where the AC quit working or making sure everyone has a meal that they enjoy; she enjoys taking care of people."

"Maryann is one of the calmest, most pragmatic problem solvers that I have ever had the pleasure to work with. I honestly don't know how she manages all of the details that she does, and its even more amazing that she does it all with a smile."
