Certified Agile Leader

ABOUT DANA

Dana started out in the retail industry in 1989 in the Merchant information area. She then transitioned to IT as a business analyst in 1999. Dana's Primary areas of business expertise are merchandising systems and enterprise data. Dana also has a deep understanding, and it's an expert when it comes to managing business analysts, centralized testing, project management and financial management. Dana also has a lot of experience in directing both large development efforts and operational support.
