ABOUT DOUG

For a \$10B manufacturing and industrial services company, Doug King led the IT group through the divestiture of a \$3.5B division. The project involved the identification of the systems, processes and technology associated with the divestiture and the program management of the cutover activities. For a leading domestic airline, Doug led implementation of a new web services. He served on the Executive Steering Committee and was the delivery partner for the mobilization, design, build, test and implementation phases of the new website. For a large food manufacturer, Doug was the delivery assurance partner for the a \$1B SAP implementation. The engagement consisted of acting in an advisory role to the Corporate Executive Team and the Program Management Office. Throughout his career Doug has been responsible for implementing several Web-based, e-commerce solutions, and in the implementation of several enterprise resource planning (ERP) implementations of SAP and Oracle's human resources, financials, manufacturing and supply chain modules.
