## ABOUT MICHAEL

Through most of Michael's childhood he was convinced his career would be in medicine, specifically Orthopedic Surgery. It wasn't until selecting a college major, when he scrolled a bit too far past Chemistry and saw Computer Science, that he decided that made more sense. Michael had always been a "computer guy," but hadn't really thought about it as a career until then. Originally focused on design more than development, Michael founded a small design firm LLC with some college friends. After graduating from College, Michael found CWT. From day one, his focus was different than his developer peers - their dreams were Architecture, Michael's was Leadership. He traveled the path from Junior to Mid to Senior Developer, and then he was exposed to Agile Scrum and his whole world changed. Michael then became a ScrumMaster, and eventually, Development Manager, still at CWT where he remains to this day. Now, Michael has the role of being an Agile evangelist and sponsor for his organization. Michael also holds a Bachelor of Science degree in Computer Science from The University of Texas at San Antonio.

## WHAT OTHERS HAVE TO SAY

*"Michael, wow, what can I say? You are the youngest manager I have ever had, but you certainly have been the most supportive and eloquent manager I have ever had. I know you are out there fighting for our development team every day. Sometimes I know that is a very hard road to travel, but I also know that you are very persistent and not willing to give up the fight. I know E2 Development will continue to grow and prosper under your dedicated leadership. Thank you for all of your support and dedication."*

**PERSONAL SLOGAN:** "MODERATION IN ALL THINGS, INCLUDING MODERATION."
