ABOUT BETH

Beth specializes in leading successful IT projects including software implementations, process improvements, and new technologies. She takes pride in her ability to deliver high quality projects as well as bringing a fresh approach to confidently and effectively accomplish challenging project objectives. With a solid track record of successful project, program, advertising, and software implementation, she has collaborated seamlessly with senior managers/execs, vendors, user groups, and business professionals to design project plans and develop project management processes and methodologies. Beth offers a well-defined understanding of the business-technology interface and capacity to identify and align emerging technology needs with products and services. Beth's passions lie in project management and she is always looking to continue enhancing her leadership skills, especially after getting a PMI ACP and CSM certificates. She also holds a BS in Fashion Merchandising from Iowa State University.

WHAT OTHERS HAVE TO SAY

"Beth is an extremely detail oriented and energetic manager, always keeping on top of both departmental and individual goals. Beth stepped into a position that had been lacking in supervision, goals and structure and hit the ground running. She quickly provided her team with the tools and discipline needed to meet & exceed both company and individual goals. I have the utmost respect for her as a colleague and manager and learned many things from her. She has a phenomenal work ethic and strives to do her best in every aspect of her life and it came through at work everyday. She is dependable and accountable. I'd highly recommend her for any position she is striving for and would be happy to work for her or with her again."

"Beth McDonald is a great, and natural leader. The queen of multi-tasking and being efficient, it is second nature for her to give organization and structure to everything she does. She is very goal oriented and always put 110% into projects. As a manager, I would consider Beth to be very resourceful in taking notice of my interests and talents, thus supporting and being helpful in helping me reach for my long term career goals as well. Beth would be a great manager and a great asset to any organization!"

PERSONAL SLOGAN: "GET IT DONE."
