ABOUT EMILY

Emily is an Agile Software Development professional with 5 years experience in the Health and Legal professions. As a scrum-master Emily worked to create cohesive Agile development teams. She facilitated in the basic scrum process of organizing the daily stand-up, sprint review, sprint retrospective, product demonstrations, and sprint planning. She provided leadership within the team while giving executive stakeholders a window from which to view the product development process. Emily also develops standard-based web applications, maintains current websites/applications and delivers new feature enhancements. Emily is also well versed in product development life-cycles including: Requirements Gathering, Design, Development, Integration, Verification and Validation, Deployment, and Support. She has extensive experience in Agile Software Development Methodologies, Records/Document Management, Process Improvement, and team building.

WHAT OTHERS HAVE TO SAY

"Emily truly embodies the saying "positive energy is contagious". Her positive, can do attitude is truly infectious and I'm always encouraged by the way I see her treat her peers. Whether it's serving coffee from her cube, helping troubleshoot a glitch from excel, sharing one of her awesome hugs, or just simply listening with intentness, she's a true team player."

PERSONAL SLOGAN: "NO EXCUSES."
