ABOUT ROB

Rob Williams has been with QS/1 for more than 12 years. In his current role as Manager of Application Development he is responsible for overseeing the design, development, deployment and support of healthcare product enhancements for the pharmaceutical industry. A devoted follower of Agile methodology, Rob leads the software development life cycle (SDLC) process using epics, user stories, backlogs, sprints, daily stand-up meetings, Kanban boards and burn-down charts.

As an innovative and resourceful IT Leader, Rob has extensive experience designing, developing and delivering commercial software products and systems that significantly increased corporate growth and market share in competitive industries. His greatest strengths include strategic planning, analytical, critical-thinking, problem-solving and customer-relations skills.

Rob enjoys working with users and technical teams to develop and implement high-visibility projects that resolve complex challenges within tight deadlines and budget requirements.

PERSONAL SLOGAN: "PATIENCE IS A VIRTUE."
