ABOUT ANITA

Anita started in IT over 20 years ago as a Business Analyst and later switched career paths to become a SR Tester. She switched to another company that was doing Agile and loved how it allowed teams to come together for collaboration and quick delivery. Anita wanted to learn more about Agile which led me to getting her ScrumMaster certification. With a passion for wanting to see people succeed she wanted to learn more and more about Agile and how she could teach others how to adapt this methodology. Anita later went to receive her Agile Coach certification. She enjoyed coaching and mentoring people on the Agile mindset and and how it can produce high performing teams.

Anita has been married for 33 wonderful years. Her main passion is working with youth and serving Jesus Christ. Anita's skills set consist of: coaching, mentoring, communications, planning and delivering her promises. Anita holds a bachelor degree in Corporate Training and Development from Wayland Baptist University.

WHAT OTHERS HAVE TO SAY

"Anita is one of those great team members you always wish you could find but rarely do. Eager to do and learn. Willing to question and with respect. Challenges and yet at the same time knows when to be a team player. I had the great opportunity to work side by side with Anita and with a warm smile, a hearty laugh, great work ethic and skills, and a quick wit...she won me over!"

PERSONAL SLOGAN: *"TREAT OTHERS LIKE YOU WOULD WANT TO BE TREATED."*
