ABOUT SONJA

As a Certified ScrumMaster and Scrum Product Owner, Sonja is an experienced Agile Coach and ScrumMaster. Sonja received her MBA from St. Ambrose University. She first discovered Agile in 2011 and then gained first hand Agile knowledge as she worked as an Agile consultant in several different roles and industries. Sonja lead an Agile transformation which included everything from training management, teams, and ScrumMasters to launching and coaching 12 teams in a year. She loves to teach and has been an adjunct professor in such topics as computer software/hardware, business strategy, and economics. Sonja has been an IT professional for 17 years with various technical roles in desktop management, networks, data warehousing, and order management.

WHAT OTHERS HAVE TO SAY

"Sonja is a quick thinker. If something doesn't work the first time she'll find other paths to quickly complete a task or job successfully and efficiently. I would recommend Sonja."

"Sonja worked on the Data Warehouse team while I was the Sr. Manager of the Development teams. Sonja demonstrated a passion for helping the customer's when they had support needs while writing their own Cognos reports. Sonja was always detailed and organized with her tasks. She was always up for the challenge to learn something new or improve a process, like when she created training videos to help reduce help desk calls. I found Sonja always very friendly and always wanting the best for the team. Her team spirit is missed on the team!"

PERSONAL SLOGAN: "FOR WITH GOD, NOTHING IS IMPOSSIBLE."
