## ABOUT ANDREW

Andrew Walls began his sales career in the fast-paced financial industry of NYC. After working in the industry for several years, Andrew eventually transitioned into training financial advisors on various diversified investment vehicles to help their clients build and grow their retirement portfolios.

After his time in the financial sector, Andrew moved into the education technology industry where he spent seven years working with school districts and state departments of education, across the US, with a focus on improving student learning through performance based data collection and analytics.

Combining his passions for sales and education, Andrew is currently working with The Braintrust Consulting Group to affect Agile transformations at the enterprise, team, and individual level through practical, hands-on training.
